## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/29/2007 has been entered.

### ***Response to Arguments***

Applicant's arguments, see pages 6-7, filed 11/29/2007, with respect to the rejection(s) of claim(s) 14-28 under 35 USC § 103(a) as unpatentable over US Patent 5604804 in view of US Patent 5745574 to Muftic have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of US Patent 6513117 to Tarpenning et al.(hereinafter Tarpenning).

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 14-26 are rejected under 35 U.S.C. 102(e) as being anticipated by US Patent 6513117 to Tarpenning et al.(hereinafter Tarpenning).

Regarding Claim 14, 22, Tarpenning discloses the transferring of functionality of device to a different device(Abstract & Fig. 5 item 1045), comprising:  
implementing in the new device a document issuing policy of the certifying authority(CA) see Fig. 5 item 1045; reading form the existing device into the new device the certified document see Fig. 5 item 1015 & 1025; generating by the new device a new certified digital document according to issuing policy, which permits the use of the new device with the same functionality see Fig. 5 item 1045 & Fig. 6 item 1145.

Regarding Claim 15, 20, 25, Tarpenning discloses the information associated with the identity of new device or it's user stored within the new device see Fig. 4A item 925.

Regarding Claim 16-19, 21, 23-24, 26, Tarpenning discloses the personal identity information and certificates being authenticated see Fig. 4A item 935 and outputted through a channel see Fig.4B item 945 & Fig. 2.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 27 and 28 are rejected under 35 U.S.C. 103(a) as being unpatentable over US Patent 6513117 to Tarpenning in view of U.S Patent 5721781 to Deo.

Regarding Claim 27 and 28, Tarpenning does not disclose the wristwatch and smart card device. However, Deo discloses the wristwatch and smart card device see Col 4 Ln 21- 35. It would be obvious to one having ordinary skill in the art at the time of the invention to include the wristwatch and smart card device in the invention of Romney in order to use conventional electronics.
